INfinity 510

INfinity 510 Development Kit

Ultra High Frequency 860 – 960 MHz High-Performance RFID Reader Evaluation Kit

The DK-510-1 RFID development kit is an easy to use, cost effective tool for evaluating the performance of the INfinity 510 Gen 2 reader in a lab or actual application environment. The kit contains all necessary components to create a fully functional RFID reader solution. With the DK-510-1, you will be able to be install and configure a system and begin testing applications within minutes.

The DK-510-1 contains an INfinity 510 worldwide reader, an IM-510-1 interface module, 2 antenna, and all necessary cables to connect the system components. In addition, the INfinity 510 Reader Setup Tool, and RAPID libraries are included to speed configuration and application development for the INfinity 510.

The INfinity 510 redefines the state-of the-art for RFID readers. This powerful UHF reader system is designed for enterprise class applications and features best-in-class air interface performance. The INfinity 510 was designed from the ground up to provide worldwide regulatory support from a single platform.

KIT CONTENTS:

- INfinity 510 Worldwide UHF RFID Reader
- INfinity 510 Power Supply
- INfinity 510 Interface Module
- Two Worldwide, Circular Polarized Antennae
- Two 3m Antenna Cables
- Interface Module Power Cable
- Interface Module Digital I/O Cable
- 2m Cross-over Ethernet Cable
- 2m RS-232 Cable
- AC Power Cable
- Sample Gen 2 RFID Tags
- Reader Setup Tool
- RAPID™ Java and .NET Libraries
- Documentation

Accessories

A variety of accessories for the INfinity 510 reader are available to customize your installation. These include several antennae, adapters, and cable choices. Additional items may be available by special order. Ask your Sirit sales manager for specific details.

Antenna

Part Number	Description
AN-CIRC860960-1	860 – 960 MHz RHCP Antenna

Cables

Part Number	Description
CA-NM-RPTNCPLUG-3M-1	3m N-Type male to RN-TNC plug LM-240 cable
CA-NM-RPTNCPLUG-8M-1	8m N-Type male to RN-TNC plug LM-240 cable
CA-KM-KF-1M-1	1m INfinity 510 Interface Module Power Cable
CA-T12F-DB15-1M-1	1m INfinity 510 Interface Module Data Cable

Adapters

Part Number	Description
AD-NM-RPTNCPLUG-1	Type N jack to RP-TNC plug Adapter
AD-NF-RPTNCPLUG-1	Type N plug to RP-TNC plug Adapter
AD-SMAM-RPTNCPLUG-1	SMA jack to RP-TNC plug Adapter
AD-SMAM-SMAF-1	SMA jack to SMA plug Adapter

Other

Part Number	Description
PS-510-1	INfinity 510 Power Supply
IM-510-1	INfinity 510 Digital I/O Interface Module
DK-510-1	INfinity 510 Development Kit

About Sirit Inc.

Sirit Inc. (TSX: SI) is a leading provider of Radio Frequency Identification (RFID) reader technology to OEMs and solution providers worldwide. Harnessing the power of Sirit's enabling-RFID technology, customers are able to more rapidly bring high quality RFID solutions to the market with reduced initial engineering costs. Sirit's products are built on more than 13 years of RF domain expertise addressing multiple frequencies (LF/HF/UHF), multiple protocols and are compliant with global standards. Sirit's broad portfolio of products and capabilities are easily customized to address new and traditional RFID market applications including Supply Chain & Logistics, Cashless Payment, Access Control, Automatic Vehicle Identification, Inventory Control & Management, Asset Tracking and Product Authentication. For more information, visit www.sirit.com.

The "RFID by Sirit" symbol signifies that Sirit Inc.'s high quality RFID reader technology resides within this product.
